

Where Innovation Meets Education

Trusted by 250+ schools

Farabio is an advanced School Management System designed to transform the way schools operate. Combining cutting-edge AI, data analytics, and seamless design. Empowers educators, administrators, and parents with smart tools that simplify daily operations, save time, and unlock new insights.

From Educators to Educators

Built by educators and engineers, from managing attendance, timetables, and assessments to predicting student dropouts and enhancing parent-school communication, Farabio delivers a **complete & integrated** platform tailored to every school's needs.

Simple by Design

Intuitive UX for principals, teachers, students and families.

Modular & Flexible

Adopt only the apps you need. Scale smoothly as you grow.

AI-Powered

From smart timetables to predictive analytics for student success.

Data-Driven

Clear dashboards and reports to inform quick, confident decisions.
